FRANKFORT, NOVEMBER 5, 1898.

The President's Proclamation.

Below we give the proclamation of President McKinley appointing a day of thanksgiving and prayer:

To the People of the United States:

The approaching November brings to mind the custom of our ancestors, hallowed by time and rooted in our most sacred traditions, of thanksgiving to Almighty God for all the blessing He has vouchsafed to us during the past year.

Few years in our history have afforded such cause for thanksgiving. We have been blessed by abundant harvests, our trade and commerce have been wonderfully increased, our public credit has been improved and strengthened, all sections of our common country have been brought together and knitted into closer bonds of National purpose and unity.

The skies have been for a time darkened by the cloud of war, but as we were compelled to take up the sword in the cause of humanity we are permitted to rejoice that the conflict has been brief and the losses we have had to mourn, though grievous and important, have been so few, considering the great result accomplished, as to inspire us with great gratitude and praise to the Lord of Hosts. We may laud and magnify His holy name that the cessation of hostilities came so soon as to spare both sides the countless sorrows and disasters that attend protracted war.

I do therefore invite all my fellow-citizens, as well those at home and those who may be at sea or sojourning in foreign lands, to set apart and observe Thursday, the 24th day of November, as a day of National Thanksgiving, to come together in their several places of worship for a service of praise and thanks to Almighty God for all the blessings of the year; for the mildness of the seasons and the fruitfulness of the soil, for continued prosperity of the people, for the devotion and valor of our countrymen for the glory of our victory and the hope of a righteous peace, and to pray that the Divine guidance, which has brought us heretofore to safety and honor, may be graciously continued in the years to come.

(Signed,) WM. McKINLEY.

Governor's Proclamation.

Thursday, the 24th day of November next, is hereby set apart as a day of thanksgiving and prayer.

W. O. BRADLEY,
Governor.

Location of the Capital.

At the request of several friends we give herewith the provision of the Constitution with reference to the location of the seat of government:

"Section 255. The seat of government shall continue in the city of Frankfort unless removed by a vote of two-thirds of each house of the FIRST GENERAL ASSEMBLY which convenes after the adoption of this Constitution."

The first General Assembly met, transacted its business and adjourned, without taking any action; therefore, so far as the Legislatures are concerned, they cannot remove the seat of government from this city.

Rather a Novel Decision.

A case of much interest to the legal profession was tried Saturday before Judge Carroll, in the Henry Circuit Court. The Eminence Building & Loan Association, by the directors, made an assignment to W. L. Hudson and W. E. Clubb. The stockholders attacked the assignment through Attorneys Sachs, Holland and Thorne. The court held, after a lengthy argument of counsel, that a building and loan association had no power to make an assignment; that a properly managed building and loan association could not be insolvent, and thereupon the assignment was set aside. The assignees were removed and the business placed in

the hands of the court receiver until, under the supervision of the court, the stockholders meet and elect new directors and officers, the old directors having abdicated their positions by reason of the pretended assignment. This is an entirely new phase of the building and loan question in Kentucky, and is the first decision of this kind ever rendered in the State, and able lawyers say the decision is sound and will be upheld by the Court of Appeals.

Richard Wagner as He Was.

The widow of Richard Wagner some time ago authorized her husband's lifelong friend, Houston Stewart Chamberlain, to write, with her assistance, two articles on "The Personal side of Richard Wagner." Mr. Chamberlain undertook the work, and The Ladies Home Journal secured the material. The articles are singularly valuable in that they give a complete picture of the man in his home and daily life, and contain much new matter, while many of the illustrations and portraits have never been printed. There will be two articles, "His personal side" and "How He Wrote His Operas," and the first one will appear in the October number of the magazine.

Will Keep All.

The United States Commissioners notified the Spanish Commissioners at Paris, on Monday, that the United States would hold all the Philippine Islands, and would assume only so much of the debt as was created for the betterment of the islands. Any part created for the suppression of the insurrection and for the benefit of Spain would not be assumed.

An adjournment of the Commission was then had until yesterday to allow the Spaniards to reply to the notice.

The wolf of starvation howls at the doors of thousands of men who are well to do and surrounded by plenty. Ill-health, in the majority of cases, is starvation, pure and simple. It means that body, brain, nerve, bone and sinew are improperly or insufficiently nourished. Improper, insufficient nourishment is starvation. When a man's head aches it is because the tissues of the brain do not receive sufficient nourishment from the blood, or receive impure and unhealthy nourishment. When a man gets nervous and sleepless, it means that the blood is not properly nourishing the nerves. When his skin breaks out with blotches and pimples and eruptions, it means that the skin is being fed upon the impurities of the blood. Almost every known disease is primarily due to improper nourishment through the blood, which is the life-stream. Dr. Pierce's Golden Medical Discovery is the greatest of all blood-purifiers and purifiers. It gives edge to the appetite, corrects all disorders of the digestion, makes the assimilation of the life-giving elements of the food perfect, invigorates the liver, promotes secretion and excretion, and vitalizes the whole body. It makes firm, muscular flesh, but does not make corpulent people more corpulent. It cures 99 per cent. of all cases of lingering coughs, bronchitis, throat and kindred affections, which, if neglected, lead up to consumption. It is the best of all nerve tonics and restoratives. Kept by all medicine dealers.

"I was taken ill in February, 1904, with headache and pain in my back," writes H. G. Gibbs, Esq., of 111 South 7th Street, Tacoma, Wash. "I called in a doctor and he came three times. He said I was bilious, but I kept getting worse. I took a cough so that I could not sleep, only by being propped up in bed. My lungs hurt me, and I got so poor that I was just skin and bone. I thought I was going to die. I used two bottles of Dr. Pierce's Golden Medical Discovery and it made me sound and well. It saved my life."

No remedy relieves constipation so quickly and effectively as Dr. Pierce's Pleasant Pellets. They never gripe.

From New Zealand.

REEFTON, New Zealand, Nov. 23, '88. I am very pleased to state that since I took the agency of Chamberlain's medicines the sale has been very large, more especially of the Cough Remedy. In two years I have sold more of this particular remedy than of all other makes for the previous five years. As to its efficacy, I have been informed by scores of persons of the good results they have received from it, and know its value from the use of it in my own household. It is so pleasant to take that we have to place it beyond the reach of the children.

An Honored Old Man.

We take the following notice of our life-long friend, Mr. Thomas Poynter, from the Winchester Democrat. Mr. Poynter has been an earnest and devout Christian gentleman for more than sixty years. He has won the hearts of all who knew him by his quiet integrity and unswerving devotion to what he viewed as the right. In every contest between right and wrong, morality and immorality, he can always be counted as upon the right side. Never self-assertive, he commands the admiration and love of all in his green old age.

"Mr. Thomas Poynter, of Franklin county, furnished a notable example of youth and vigor renewed or extended, as his friends watched him at the reservoir last week rowing over the lake, while his son, J. W. Poynter sat fishing at the opposite end of the boat. Notwithstanding the four score years and six, a lame foot, a sprained right knee and a nervous affection that enfeebles his right arm, Mr. Poynter bids fair to be the 'crack' oarsman of Winchester, thus exemplifying the scripture that 'they shall renew their strength; they shall run and not be weary; they shall walk and not faint.'"

The Chief Burgess, of Milesburg, Pa., says DeWitt's Little Early Risers are the best pills he ever used in his family during forty years of house keeping. They cure constipation, sick headache and stomach and liver troubles. Small in size but great in results. Tyler & Hemphill.

A Martyr's Death.

Col. Geo. E. Waring, the famous sanitary expert, who was sent to Havana by the Government to make plans and arrange for the proper sanitation for that city, was stricken with yellow fever and was brought to New York City while the fever was still thought to be typhoid, died in the latter city on Saturday morning.

He was a man of splendid attainments and character and literally died a martyr's death.
